TECHNOLOGY

ZSERIES

Radical new sliced geometry for increased handling. New Nanoweb upper technology keeps your foot supported and centered. Underfoot grooves provide increased edge and ground contact for great stability (Training) and a fast release (Running).

ONESERIES

Uniquely designed from the back to the front in distinct zones, ensures you will land softer, transition smoother, and push forward faster. Seamless fusion of zones engineered to ensure the upper and bottom work harmoniously.

WZIGTECH

The ZigTech sole is engineered into an innovative, zigzag shape. ZigTech is designed with unique energy return along the sole for enhanced cushioning from heel strike to toe-off.

WZIGLITE

The sole of the ZigLite is engineered into an innovative, zigzag shape. ZigLite is designed with unique energy return along the sole for enhanced cushioning from heel strike to toe-off. ZigLite offers lightweight runnability with running specific enhancements. Fuel your feet with ZigLite.

WZIGNANO

ZigNano's lightweight, low profile sole is designed to provide responsive cushioning for performance running or training.

WZIGTECH SHARK

The sole of the ZigTech Shark is engineered into an innovative, zigzag shape. ZigTech Shark is designed to give you the springy, lightweight cushioning of the original ZigTech with a smoother, more comfortable ride. Attack your run with the smoother, more aggressive ZigTech Shark.

WZIGKICK

ZigKick is designed with unique energy return for cushioning where it is needed most, at the point of impact.

WZIGCARBON

ZigCarbon features a full length carbon fiber plate for flexibility through the forefoot and structured support in the midfoot.

REALFLEX

RealFlex is all about natural movement. Engineered with individual, multi-directional nodes, these shoes are designed to flex as you run, jump and stretch.

REALFLEX Hi-mileage

Flexible, minimalist feel with added durability to tack on extra miles.

REALFLEX Speed

Flex nodes engineered for lightweight cushioning.

REALFLEX Flight

Flex nodes engineered for guidance.

REALFLEX Select

Flex nodes engineered for responsive cushioning.

TRAINFLEX

Flexible, cushioned trainer that offers stability while allowing the foot to move naturally.

YOURFLEX

YourFlex features 3D Ultralite midsole and a single layer mesh upper for breathability and minimalist construction.

EASYTONE

Built-in balance-ball inspired pods, featuring Moving Air Technology, transfer air in response to your stride to create micro-instability with every step.

SLIMTONE

Comfortable, dual-foam pods are designed to create micro-instability with every step.

SIMPLYTONE

SIMPLYTONE 2.0

DMXMAX

DMXMax moves air from heel-to-toe as you walk, providing cloud-like cushioning customized by your stride – a whole new level of comfort.

SUBLITE

SubLite foam technology limits the use of traditional rubber to high wear areas only, reducing weight without "stripping" support and comfort.
